

The Inter-Pacific Bar Association invites you to a special webinar:

The Great Return?

How has the legal practice adapted and changed due to the COVID-19 pandemic?

7 June 2022

16:00-17:30 Singapore • 17:00-18:30 Tokyo

via Zoom

The pandemic has caused and continues to cause paradigm shifts within the legal industry, which changes may or may not permanently alter the practice of law.

This Webinar, jointly sponsored by the IPBA Legal Practice Committee and the Next Generation Committee, brings together panelists from London, Tokyo, New Delhi, Bangalore, Auckland and Singapore to share their experiences and insights on how lawyers have been impacted by COVID-19, and their respective adaptations or practices to meet the various challenges posed by the pandemic.

The Singapore Law Academy, which has extensively discussed the matter with local practitioners, in-house counsel, and international firms that have chosen to locate in Singapore, making it the legal hub in this part of Asia, shall share its impressions on notable developments, emerging practices or trends post COVID.
